

Cyber Security Policy

OGS Global places high value on conducting its business with robust Cyber Security processes.

Through management leadership and employee involvement, OGS Global will continue to identify any cyber security issue arising from our activities and reduce them to the lowest practical levels. Our goal is to prevent harm to our employees, our clients, our communities, and our company.

To emphasise our continuing commitment, OGS Global pledges to:

- Protect company assets;
- Prevent threats to those assets; and
- Implement rules and controls to protect those assets.

See the OGS Global Cyber Security Policy Guidelines (GRP-IT-GD-SA-0001) for more information.

A handwritten signature in black ink that reads "Jason Antunovich".
